1. A response has been filed on October 24, 2003.
2. Claims under examination are 1-5 and 13-17.
3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 1-5 and 13-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Schroeder et al (WO 00/64228).

Please refer to earlier office action for this rejection.

5. Applicant's arguments filed October 24, 2003 have been fully considered but they are not persuasive. Applicants have relied upon a declaration by one of them to respectfully traverse the above rejection. According to the declaration speaker cabinets molded from wood material having 10-40% by wt of coarse wood would not provide the required dampening. No data have been furnished by the applicants to compare the dampening of claimed composition versus that of Schroeder. As earlier pointed out to the Attorney in the telephone interview (of January 15, 2003), instant claims do not encompass any limitation about dampening. In absence of any information to the contrary, it is reasonable, according to the examiner to assume that the composition of Schroeder also possesses dampening characteristic same as or very close to those of instant composition. Furthermore it is known (and also obvious) in the art to vary amount of ingredients in a composition to produce a product of desired qualities.

Said declaration has been considered. It is however not conducive to establish nonobviousness of instant claims.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
